

**Interview Summary:**

Applicants' Attorney and Examiner Portka met for a telephone interview on February 25, 2008. Applicants' Attorney hereby submits a summary of the interview.

The telephone interview took place following issuance of a Final Office Action dated February 25, 2008, and prior to submission of a Response to the Office Action. There was no exhibit or demonstration of the invention provided to the Examiner during the course of the interview. More specifically, upon review of the Final Office Action, it came to the attention of Applicants' Attorney, that the subject Office Action did not correspond to the outstanding claims. This lack of correspondence between the issued Final Office Action and Applicants' outstanding claims was discussed with Examiner Portka during the interview. Examiner Portka determined that the subject Office Action was improper and agreed with Applicants' Attorney to issue a new Office Action. Accordingly, an agreement between Applicants' Attorney and Examiner Portka was reached.
